Introduces “**STUBBY**™”

Getting close with a stripper has never been easier.

PATENT PENDING

Features & Benefits:

- ◆ **STUBBY**™ facilitates proper cable preparation in confined areas where conventional strip tools won't work.
- ◆ **STUBBY**™ eliminates the need to run new cable when the short stub-in is just out of reach for the conventional strip tool.
- ◆ **STUBBY**™ is rotated in a natural screw driver type motion and will not nick the braid or score the center conductor.
- ◆ **STUBBY**™ can also be utilized as a conventional strip tool in normal cable exposure areas.
- ◆ Cartridges are easily interchanged for different cable applications.
- ◆ **STUBBY**™ is suitable for use with Sargent's full family of cartridges.
