9030 US SERIES COMBO 360° COMPRESSION TOOLS

Features & Benefits:

- ◆ Spring-loaded cable positioners provide 360° support against the connector ensuring uniform compression while minimizing faulty connections.
- ◆ Compresses both RG6/59 and RG11/7 environmentally sealed male F connectors.
- ◆ Counter bored finger design assures proper alignment of connector prior to compression.
- ◆ Toggle action assures complete connector sealing without the need for a complicated ratchet mechanism.
- ◆ High mechanical advantage reduces compression force during connector installation, minimizing user fatigue.
- ◆ Front load handle design facilitates connector compression in tight spaces.
- ◆ Tools conservatively rated for 25,000 cycles on high load connectors.
- ◆ Two versions available to satisfy a wide range of connector manufacturers' shut height requirements.
