## SARGENT® 9300 Series PEX *Soft-Touch* ULTRA-LITE Composite Handle Crimp Tools

SARGENT® Soft-Touch ULTRA-LITE Pex Crimp Tools handles are 20% lighter than most pex crimp tools to help you stay on the job longer with less fatigue without sacrificing tool strength.

9306 STC DP with Clamshell Display Pack

All SARGENT® crimpers for copper rings include a go/no-go gage

9306 STP includes pod case for handy storage & display

### Lightweight Composite Handles and Ergonomic Soft Grips

- Soft comfort grips increase crimping power and lessen chance of slippage
- Composite material handles combine the strength of glass-filled polycarbonate with the chemical resistance of polyester; these tools hold up to plumbers' punishment
- Easily calibrated; simple instructions are on the handle
- Crimps conform to ASTM F-1807 Standard Specification
- 14" Tool length

## SARGENT® 9358 SAK *Size-All* Composite Handle Crimp Tool with Interchangeable Dies for 3/8", 1/2", 3/4" and 1" Pex Copper Rings

This unique tool has built-in 1" jaws for pex copper rings. The 1" crimping jaws accept interchangeable dies for 3/8", 1/2" and 3/4" pex copper rings. Spring loaded pins hold dies. Change dies without tools.

Pod case stores dies and crimper when not in use

All SARGENT® crimpers for copper rings include a go/no-go gage

- Crimps conforms to ASTM F-1807 Standard Specification
- Easily calibrated; simple instructions are on the handle
- Ergonomic soft comfort grips
- Strong and lighter composite handles
- High mechanical advantage

Changing sizes is as easy as 1,2,3:

1. Press spring loaded pin
2. Release die
3. Replace

# COPPER RING PEX TOOLS

## SARGENT® 7407 ES *Easy-Shear* Ring Remover Tool for 1/2", 3/4" and 1" Pex Copper Rings

Simple to use

1. Cut fitting  
from pex

2. Insert tool into  
fitting and cut ring

3. Turn fitting 90°, cut again,  
ring expands for removal

- Easily cuts copper rings for quick, safe fitting salvage
- Built-in gap prevents fitting damage
- Heat treated blade for plenty of dependable cuts
- Also removes pex from fittings by scoring the pipe without damaging the fitting
